Citations in Text

Black (1929) says A, Wold and Jureen (1989) say B, Wold, Smith, and Jureen (3003) say C, Wold et al. (3004) say D, Wold et al. (3005) say E., Brown (1965) says F, and the U.S. Department of Agriculture (1965) says G. An overview is available in table 1.

Citations in Parenthesis

A equals B (Black 1929), B equals C (Wold and Jureen 1989), C equals D (Wold, Smith, and Jureen 3003), D equals E (Wold et al. 3004), E equals F (Wold et al. 3005), F equals G (Brown 1965), and G equals A (U.S. Department of Agriculture 1965). Hence, A, B, C, D, E, F, and G are all equal (Black 1929; Wold and Jureen 1989; Wold, Smith, and Jureen 3003; Wold et al. 3004, 3005; Brown 1965; U.S. Department of Agriculture 1965).

Equations

All displayed equations should be left-justified and numbered consecutively (on the left). Vectors and matrices should be in bold.

$$(1) \quad \mathbf{y} = a + \mathbf{X}\mathbf{b}$$

where a is a scalar, \mathbf{y} and \mathbf{b} are vectors, and \mathbf{X} is a matrix. Of course, the same holds for Greek symbols.

$$(2) \quad \boldsymbol{\theta} = \alpha + \boldsymbol{\Psi}\boldsymbol{\beta}$$

where α is a scalar, $\boldsymbol{\theta}$ and $\boldsymbol{\beta}$ are vectors, and $\boldsymbol{\Psi}$ is a matrix.
